

On ground support to conduct Research in Sri Lanka

The CHA is pleased to support research activities in Sri Lanka. We have worked across the country with national and international organizations.

The following facilities could be provided and coordinated by us for University students who are reading for their MA, MSC, PhD and institutions that need on ground support

We offer the following services:

- Designing questionnaires
- Identifying samples
- Planning & organizing field visits (island wide) transportation, food and lodging
- Obtaining necessary permission from the relevant authorities.
- Providing translation /interpretations (from and to local languages)
- Locating Research assistants
- Data analyzing
- Work station / space for work.

Please contact us contact for details pertaining to your needs and our related costs:
