	<p>on day 1 of the workshops were mainly from J / Navatkuli Maha Vid. The absence was discussed with the teachers, when they appeared during the second day. Individual reasons were given from each of the teachers, such as sudden hospitalisation of family members etc. The importance of them participating in each training was stressed to each of the teachers as well as the group as a whole.</p> <ul style="list-style-type: none"> <li>• A problem has arisen in J / Myilliddy North Kalaimagal Vid. in regards to the number of teachers participating in the programme. Transfer of the original teachers volunteering for the programme, pregnancy of one of the new voluntary teachers etc. is obstacles met in this school. Therefore the teachers of the school requested one of the volunteers to take over one of the workshop groups instead of the teacher, but the DRC Advisor advised against this, as the Red Cross volunteers in general does not have any pedagogical background and cannot be considered suitable for implementation instead of teachers. A meeting with all the teachers of J / Myilliddy North Kalaimagal Vid. as well as the principal will be held after the school holidays to discuss possible solutions. The school is one of the weakest in the programme and has been severely affected by the war. The communities are still living displaced in IDP camps, as their original place of origin is part of one of the High Security Zones. It is therefore important to support this school as much as possible for them to continue with the programme.</li> <li>• J / Kaladdy R.C.T.M.S requested a donation of 16.000 rupees for kitchen rehabilitation as their kitchen facilities was destroyed by the Tsunami. They were granted the money.</li> <li>• Health Promotion meeting was held to follow up on the workshop last week. Main purpose was to structure and agree on deadlines for the development of the manual to accompany the games, flash cards, forum theatre etc. Deadline for the development of the manual is the 18<sup>th</sup> of April</li> <li>• The official approval letter of the psychosocial manual from the NIE was received by fax. The original is expected by post. The request for an application for ISBN-number was forwarded to the Director of the National Library with a copy of the letter. SLRCS HQ will apply for the ISBN-number.</li> <li>• Final preparations for the follow-up with 1<sup>st</sup> and 2<sup>nd</sup> batch of trained volunteers from Eastern districts were undertaken. A senior PST and two junior PST are conducting the sessions in all three districts this week. So far feedback is positive. Training for the 3<sup>rd</sup> batch of volunteers from the Eastern districts will be trained from the 18<sup>th</sup> of April till the 27<sup>th</sup> of April and the preparations for the training</li> </ul>

Purpose of the meeting is to clarify the role of the Red Cross volunteers in the programme and ensure that the attitude of the volunteers do not harm the programme implementation.</li> <li>• Papers on baseline and evaluation methodology used in other programmes were shared with Prof. Somasundaram, Dr. Sivayogan, Dr. Pavani and Mrs. Kohila Mahendaran.
